

Did you know ...you can now see a GP at the weekend?

We are very pleased to be offering weekend appointments to our patients.

These appointments are available at a local health centre and can be booked through our receptionists.

We are encouraging people to use this service which provides additional appointments to fit in with your busy lifestyles.

Patients can see a GP, healthcare assistant or nurse over the weekend for routine GP appointments, health checks and treatments. People with long term health conditions such as asthma and diabetes can also access these appointments.

To find out more about the service please go to www.weekendgpservice.net or ask our receptionists.
